

Name: _____

Renewable or Non-Renewable?

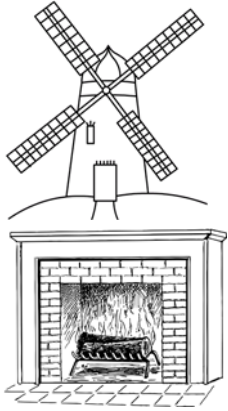

What is the energy source? Is it renewable or non-renewable?

Source:

Renewable or Non-renewable:

ANSWERS

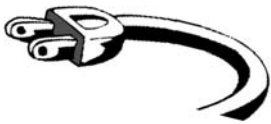

Source:

Renewable or Non-renewable:

Wind

Renewable

Wood (Both: non renewable as it's destroyed but renewable if re-planted) Children should back up their answer and either is acceptable if they can explain why.)

Hydro

Renewable as it's produced mostly by water.

Solar/ Sun Renewable

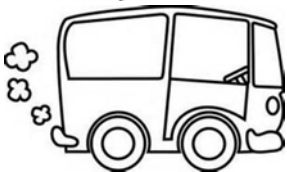

Water

Renewable

Coal

Non renewable—it is mined for.

Fuel/Gas/Fossil Fuel

Non Renewable
